2026 Consumer Affordability Legislative Scorecard

About the Washington Retail Consumer Affordability Scorecard

Every retail transaction in Washington feels the Legislature's hand twice. The customer feels it at the register, where taxes and regulatory costs are built into the price of groceries, school supplies, and prescriptions. The retailer feels it in the back office, where decisions made in Olympia drive the cost of rent, insurance, payroll, and keeping the doors open. One transaction, two impacts — both written, line by line, into state law. Affordability in Washington is decided every session, vote by vote. The Consumer Affordability Scorecard is Washington Retail Association's record of how each legislator voted on bills that most directly shape what families pay and what retailers, from locally owned Main Street shops to the state's largest employers, must absorb to keep serving them.

What the Scorecard Records

The 2026 session put affordability squarely on the table, from a new state income tax to tax rollbacks and repealed exemptions. WR supported measures that lower costs for consumers and the businesses that serve them and opposed measures that raise them. Every vote here is a final recorded floor vote, verified against the official legislative record, with WR's position noted on each.

Why Two Scorecards This Year

For the first time, WR is releasing two Scorecards. The reason is history: in 2026, the Legislature passed the first broad personal income tax since the state Supreme Court struck one down in 1933, after a House floor debate running more than 24 consecutive hours. A moment of that magnitude deserves more than a single line in a voting record. In addition to the affordability scorecard, there will also be a dedicated Income Tax scorecard that captures the votes on Senate Bill 6346 and the floor amendments that offered chances to reduce its cost to families and employers.

How Bills Made the Scorecard

Of nearly 2,000 bills introduced in 2026, WR tracked more than 500 affecting our industry. A bill earned a place — passed or failed — by meeting three criteria:

- **Impact:** Significant consequences, positive or negative, for the retail industry, a specific sector within the retail industry, and/or the consumers retailers serve. Narrow or technical bills are excluded.
- **Engagement:** WR held a confirmed Support or Oppose position and communicated it directly to the legislature before the vote was cast. We do not score votes where legislators had no way of knowing where retail stood.
- **Recorded Floor Vote:** At least one chamber took a floor vote. Committee actions are not scored.

How to Use This Guide

The Scorecard measures each legislator's votes against WR's position, producing a 2026 session score and a 2025–2026 biennium average. Each bill scored has its own entry: a summary of the legislation, the final vote in each chamber, WR's position, and, where applicable, the effective date.

Please join us in thanking the legislators who voted to keep Washington affordable. For more information, contact Crystal Leatherman, Director of Policy & Government Affairs, at cleatherman@washingtonretail.org.

Scorecard #1: 2026 Consumer Affordability

2SHB 2105 – Immigration Enforcement Employer Requirements (Passed) Creates new employer obligations when federal agencies inspect I-9 records: beginning October 1, 2026, employers must notify all workers in writing — in English and Washington's five most common non-English languages — within five business days of a federal Notice of Inspection. Enforceable by both the Attorney General and a private right of action.

- **Senate Vote:** yeas, 27; nays, 21; absent, 0; excused, 1
- **House Vote (concurrence):** yeas, 58; nays, 38; absent, 0; excused, 2
- A **NO** vote supported WR's position.
- **Effective Date:** June 11, 2026 (Sections 4–10 take effect October 1, 2026)

ESHB 1155 – Noncompete Agreements Ban (Passed) Washington now has a near-total ban on noncompete agreements. Effective June 30, 2027, all noncompetition covenants (existing and future, at every compensation level) are void and unenforceable, eliminating a tool that businesses have used to protect customer and proprietary information. Employers must make reasonable efforts to notify affected current and former workers by October 1, 2027.

- **Senate Vote:** yeas, 30; nays, 19; absent, 0; excused, 0
- **House Vote (concurrence):** yeas, 62; nays, 33; absent, 0; excused, 3
- A **NO** vote supported WR's position.
- **Effective Date:** June 30, 2027

SHB 2334 – Penny Rounding (Passed) Allows, but does not require, retailers to round in-person cash transactions to the nearest five cents; electronic payments stay exact, and taxes are based on the unrounded price. WR lobbied for amendments aligning Washington with other states, preempting inconsistent local ordinances, and shielding good-faith rounding from Consumer Protection Act claims.

- **Senate Vote:** yeas, 45; nays, 2; absent, 0; excused, 2
- **House Vote (concurrence):** yeas, 80; nays, 15; absent, 0; excused, 3
- A **YES** vote supported WR's position.
- **Effective Date:** June 11, 2026

ESHB 2274 – Commercial Electronic Mail Act (CEMA) Reform (Passed) A WR priority responding to the Supreme Court's 2025 *Brown v. Old Navy* decision, which expanded CEMA liability to email subject lines regardless of consumer harm and triggered a wave of class actions within months. The new law requires knowledge that a subject line is false or misleading and cuts statutory damages from \$500 to \$100 per message.

- **Senate Vote:** yeas, 43; nays, 5; absent, 0; excused, 1
- **House Vote:** yeas, 86; nays, 11; absent, 0; excused, 1
- A **YES** vote supported WR's position.
- **Effective Date:** June 11, 2026

E2SSB 5847 – Workers' Compensation Medical Provider Standards (Passed) Providers may now deviate from L&I treatment guidelines when medically appropriate, and employers may no longer direct injured workers to specific providers — and must notify workers of their right to choose their own.

- **Senate Vote (concurrence):** yeas, 30; nays, 19; absent, 0; excused, 0
- **House Vote:** yeas, 67; nays, 28; absent, 0; excused, 3
- A **NO** vote supported WR's position.
- **Effective Date:** June 11, 2026 (Section 4 takes effect June 30, 2027; Sections 2 and 5 on January 1, 2028)

ESSB 6231 – Data Center Equipment Tax Exemption Repeal (Passed) Repeals the sales & use tax exemption for replacement server equipment and data center refurbishment as of July 1, 2026; the exemption for new equipment at new facilities remains. Higher costs will likely raise prices for cloud services, e-commerce, and payment processing.

- **Senate Vote:** yeas, 26; nays, 23; absent, 0; excused, 0
- **House Vote:** yeas, 51; nays, 46; absent, 0; excused, 1
- A **NO** vote supported WR's position.
- **Effective Date:** June 11, 2026 (Sections 2 and 3 take effect July 1, 2026)

ESB 6228 – Prescription Drug Warehouse Tax Preference Repeal (Passed) Repeals preferential B&O tax rate for prescription drug warehousing and reselling, moving the activity to the standard 0.5% rate while preserving the 0.138% rate for critical access pharmacies. The repeal is projected to raise \$24 million this biennium and \$141 million in the next. However higher distribution costs tend to get passed on to retail pharmacies and consumers.

- **Senate Vote (concurrence):** yeas, 26; nays, 23; absent, 0; excused, 0
- **House Vote:** yeas, 52; nays, 42; absent, 0; excused, 4
- A **NO** vote supported WR's position.
- **Effective Date:** January 1, 2027

ESSB 5975 – Lead in Cookware Regulations (Passed) Corrects implementation and enforcement problems created by the 2024 cookware law, maintaining the 90 parts per million lead limit for covered aluminum and brass items while phasing in lower limits (50 ppm in 2030, 20 ppm in 2034) with Ecology compliance guidance.

- **Senate Vote (concurrence):** yeas, 47; nays, 2; absent, 0; excused, 0
- **House Vote:** yeas, 86; nays, 10; absent, 0; excused, 2
- A **YES** vote supported WR's position.
- **Effective Date:** June 11, 2026 (lower limits phase in 2030 and 2034)

EHB 2487 – Insurers Taxes (Passed) Tightens Washington's B&O tax exemption for insurance-related businesses, limiting the exemption to entities that directly pay insurance premium taxes to the state. Certain provisions apply retroactively to October 2, 2019, creating potential back tax liability.

- **Senate Vote:** yeas, 27; nays, 22; absent, 0; excused, 0
- **House Vote:** yeas, 51; nays, 44; absent, 0; excused, 3
- A **NO** vote supported WR's position.
- **Effective Date:** June 11, 2026 (certain provisions retroactive to October 2, 2019)

ESSB 6129 – Cigarette & Nicotine Product Taxation (Failed) Would have placed a single tax of 95% of taxable selling price on all nicotine products (vapor, pouches, heated tobacco, and other alternatives) with an additional cigarette tax raising the total to \$5.00 per pack, alongside expanded licensing, inspection, and seizure provisions. The bill passed the Senate but died in the House.

- **Senate Vote:** yeas, 26; nays, 22; absent, 0; excused, 1
- **House Vote:** No House Vote
- A **NO** vote supported WR's position.

ESSB 6346 – Income Tax on High-Earners (Passed) Establishes a 9.9% tax on Washington household income over \$1 million annually, applying to income earned beginning January 1, 2028, with first returns due in April 2029. The package also raises the B&O filing threshold, expands the Working Families Tax Credit, increases the small business B&O credit, and creates some sales tax exemptions. The Washington Supreme Court blocked a referendum attempt in May 2026; a separate constitutional challenge remains active.

- **Senate Vote (concurrence):** yeas, 27; nays, 21; absent, 0; excused, 1
- **House Vote:** yeas, 51; nays, 46; absent, 0; excused, 1
- A **NO** vote supported WR's position.
- **Effective Date:** June 11, 2026 (Sections 1101–1104 take effect July 1, 2026; Sections 901, 909–911, 1001 and 1002 take effect January 1, 2029)

Scorecard Two: ESSB 6346 – Income Tax Amendments

WR opposed SB 6346. But the final vote was not the only vote that mattered. Lawmakers also considered nearly 60 amendments, including proposals to protect small business income, address the marriage penalty, provide sales tax relief, prevent double taxation, and add fiscal guardrails to a new and untested revenue source.

House Floor Amendments

WR identified 15 amendments as most impactful to retailers and their customers, and the adoption of these amendments would have addressed some of the concern for the affordability of living and doing business in Washington.

A “yes” vote on all 15 amendments supported WR’s position. Unfortunately, all 15 **were not** adopted.

- **Federal Charitable Deduction Parity** –Taxpayers would have been allowed to claim a charitable deduction equal to the amount claimed for federal income tax purposes, rather than the bill’s more limited charitable deduction treatment.
- **Repeal of 2025 B&O and Advanced Computing Surcharges**– Would have repealed B&O rate increases, the surcharge on high-grossing businesses, and the changes to the advanced computing surcharge.
- **Excise Tax Penalty and Interest Waiver** –A penalty and interest waiver would have been created for certain excise taxes required to have been reported and paid before July 1, 2026.
- **Advertising Services Tax Repeal** – The sales and use tax on advertising services would have ended July 1, 2026. As passed, the bill repeals most of the 2025 service-tax expansion in 2029 but pointedly keeps advertising taxable — this amendment would have removed it entirely.
- **Fiscal Accountability Guardrails** –Three oversight mechanisms would have been attached to the new income tax: a 10-year revenue forecast by the Economic and Revenue Forecast Council, a mandatory legislative stabilization review if income tax revenues declined 2 percent in two consecutive years, and a JLARC review every six years.
- **Pass-Through Entity Exemption** – Income earned through pass-through entities — the structure used by roughly 85 percent of small businesses, including S corporations, partnerships, and sole proprietorships — would have been exempt from the new income tax.
- **Tax Credit Carryforward Flexibility** –Unused tax credits could have been carried forward or backward to other taxable years, and the bill’s prohibition on carryforwards for taxable years before January 1, 2028 would have been removed.
- **Out-of-State Income Exemption** –Income already subject to income tax in another state would have been fully exempt, replacing the bill’s credit mechanism and provided a cleaner shield against double taxation for taxpayers with multistate income.

- **Prepared Food Tax Exemption** – Prepared food would have been exempt from sales and use tax — direct relief at grocery delis, restaurants, and convenience retailers.
- **Back-to-School Sales Tax Holiday** – A sales and use tax holiday for back-to-school shopping would have been created — a consumer-facing benefit retailers have long supported in other states.
- **State Sales Tax Rate Reduction** – The state sales tax rate would have dropped from 6.5% to 5% effective July 1, 2028, pairing the new income tax revenue with broad-based relief on the state's most regressive tax.
- **Diaper & Menstrual Care Products Sales Tax Exemption** – The bill's diaper exemption would have been broadened to cover child and adult diapers plus essential child care products, starting January 1, 2028 — a year earlier than the diapers-only exemption in the underlying bill.
- **Sales Tax Rate Reduction Swap** – The bill's targeted exemption for personal hygiene and grooming products would have been replaced with an across-the-board cut in the state sales tax rate from 6.5% to 5.75% — broader relief in place of category-specific carve-outs.
- **Entity Tax Payment Credit Transferability** – The credit for pass-through entity tax payments could have been carried forward to other taxable years, and any credit exceeding tax due could have been carried forward or refunded — preventing stranded credits for business owners.
- **Individual Standard Deduction (Marriage Penalty Fix)** – The \$1,000,000 standard deduction would have applied per individual rather than per household, giving married couples and state registered domestic partners a combined \$2,000,000 deduction and eliminating the bill's marriage penalty.
